

EARLIEST VARIETIES

*Primo Red	68 day, determinate, 8-10oz.	New a couple years ago, in the field, gives us lots of firm, early crack free tomatoes with great flavor and size.	
*Rocky Top	71 day, determinate, 10-12 oz	Though fairly early, makes a large beef-steak type tomato, but with more uniform fruit. Tomatoes are firm, very flavorful, & do great in the field for us.	
*Jet Star	72 day, indeterminate, 9 oz	The 2nd early that will bear lots of medium sized meaty fruit all season. Jet star has been a long time favorite in this area with some resistance to blight and cracking. It is a bit low acid for canning, but many still can it.	

<u>SECOND EARLIEST VARIETIES</u>				
Mountain Spring	72 day, determinate, 10-12 oz	Popular commercially grown variety with fancy firm fruit, but needs to be on a fungicide program for blight.		
Wis 55	75 day, semi-determinate, 8 oz	a non-hybrid from the Univ. of Wis. in the 1950's that many love for canning.		

<u>FULL SEASON</u>			
Mountain Fresh	78 day, determinate, 10 oz.	Like Mountain Spring, a widely adapted production tomato with firm, fancy fruit.	
Celebrity	80 day, indeterminate, 9 oz.	All-American Selections Winner, Much like Jet Star, a popular tomato in this area with great tasting, tender fruit.	
Better Boy	80 day, indeterminate, 9 oz.	Widely grown, older variety with large plant and heavy yields.	

<u>SPECIALTY TOMATOES</u>				
Jubilee	80 day, indeterminate, 8 oz.	Yellow, low acid		
Roma	80 day, determinate, 2 oz	Popular Italian lunchbox tomato		
Sun Gold	57 day, indeterminate	Lots of golden cherry tomatoes with the sweetest, best flavor in an tomato. They split easily when fully rip so harvest often. One plant can feed a family.		

Sun Cherry	58 day, indeterminate	A red version of Sun Gold		
Very Large Red Cherry	72 days, indeterminate	Excellent salad tomato Full season, high yielding Fruit 1 - 1 1/4"		
Jasper Sun Cherry	60 days, indeterminate	2013 All American Selection Winner Less cracking than standard tomato with great taste and disease resistance		

Juliet Grape Tomato	60 day, indeterminate	All American Selection Winner, a wonderful non- splitting sweet plum tomato, great for salads, very good disease resistance	
------------------------------------	--------------------------	---	--

Heritage Breeds				
Brandy wine	78 day, indeterminate	Large fruit, perhaps the best flavor in an heirloom, but like the other heirlooms, not much for disease resistance.		
Japanese Black Trifele	74 day, indeterminate, 4-6 oz.	Burgundy colored large pear-shaped fruit have great flavor when harvested when with fruit still green shouldered.		
Mr. Stripey	80 day, indeterminate	Very large yellow fruit with red stripes running through, brought by Virginian Mennonites from the old country in the 1800s
